Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Tests of High-Speed Tool Steels on Cast Iron This Bulletin is the second of a series of bulletins to be published by the Engineering Experiment Station of the University of Illinois. The Engineering Experiment Station was established by action of. Board of Trustees December 8, 1903. It is the purpose of the Station to carry on investigations along various lines of engineering, and to study problems of importance professional engineers and to the manufacturing railway mining, constructional and industrial interests of the State. The control of the Engineering Experiment Station vested in the heads of the several departments of the College of Engineering. These constitute the Station Staff, and with Director, determine the character of the investigations to be undertaken. The work is carried on under the supervision of the Staff; sometimes by a Fellow as graduate work, sometimes by a member of the instructional force of the lege of Engineering, but more frequently by an investigator belonging to the Station Corps. The results of these investigations will be published in the form of bulletins, and will record mostly the experiments of the Stations own staff of investigators. There will also be issued from time to time, in the form of circulars, compilations giving the results of the experiments of engineers; industrial works, technical institutions and governmental testing departments. For copies of bulletins, circulars or other information, address the Engineering Experiment Station Urbana, Illinois.
