In the 2009 The United States developed 30,000 pound MOP bomb, a massive non-nuclear bomb that could smash through ten feet of solid concrete; and they gave two of these bombs to Israel as a deterrent to the nuclear build-up in Iran. These were good intentions of the U.S., but Israel had no way of delivering the bombs so the deterrent capability was useless. Then the Israelis learned, through Mossad about Mikael's desire to defect; and he was the pilot for the M-8 Stealth Bomber. A plan was made to make it appear that the M-8 crashed in the Mediterranean during a secret test mission. Next the bomb was dropped on the Iranian nuclear facility.
