Never previously successfully performed, Prophetic Letters investigates support for the Pre-Wrath Rapture using simple mathematical correlations referencing the book of Daniel. The interpretative method fully explained includes eleven graphic charts and a summary table. Evidence supports actual dates of completed major biblical events identifying the number of days between their occurrences. The evidence mathematically proves the Scriptures to those with doubt, and provides the believer with evidence for the truth of the Bible to prove to others. Prophetic Letters finds support for Pre-Wrath, and noticeably refines that presented by Marvin Rosenthal and Robert Van Kampen. It strengthens the entire case. To say the ideas presented are new is an understatement, and I believe you will be convinced, and astounded in the detail and simplicity used to prove the arguments. Using these guidelines, he then investigates each chapter of Daniel with a new look at the shabua (termed weeks in the KJV of Daniel) and reveals some astounding results. His investigation of shabua units, some that are different from...
