paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 218 Publisher: Machinery Industry Pub. Date :2011-7-1. Home Zipei editor of the process control system and its applications (2nd edition) as the general higher education. Eleventh Five-Year national planning materials. electrical engineering and automation of specialized teaching materials. teaching of Intelligent Building Series is one of the completion of Electronic Technology (analog electronics, digital electronics). sensor theory. computer theory and automatic control theory courses offered follow-up courses. Purpose is to train students to the profession-based automatic control can be automated instrument or composition of the industrial control computer process control systems and related electrical control system. and to carry out engineering design. installation. commissioning. and thus the process control system a more comprehensive understanding. Process control system and its applications (2nd edition) to highlight the process control system and automatic control of electrical design to achieve. how to control the parameters of the project commissioning and tuning. from the application point of view. so that students in the learning process . the composition of the process control system. design and applications have a comprehensive understanding. Of instrumentation and process control instrumentation. the book also made a more comprehensive introduction. In the content of the book to avoid too much overlap automatic control theory courses. This book's emphasis on practical training. so that students can learn some practical system design. use. debugging knowledge. This book is also a separate chapter describes Project. Computer process control system and monitoring network system has been widely used in many industries and fields. so the book is also strengthened the part of the content. Process control system and its applications (2nd edition) for electrical engineering. electrical automation undergraduate teaching purposes. but also...
