

The influence of the International Finance Institutions' liberal policies in Latin America

By Andreas Keller

GRIN Verlag Sep 2014, 2014. Taschenbuch. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2008 in the subject Politics - International Politics - Topic: International Organisations, grade: 1,0, LMU Munich (Geschwister-Scholl-Institut für politische Wissenschaften), language: English, abstract: Regularly, the International Finance Institutions (the World Bank and the International Monetary Fund) are criticized harshly by Latin American leaders - Venezuela's Hugo Chávez even called them a 'curse' for Latin America, and condemned its 'shock politics that have spread hunger, misery, poverty and violence to our peoples.' The 'Banco del Sur', a new development bank recently founded by Venezuela and six other Latin American countries, is seen as an answer to the IMF and the World Bank. Criticism like this is common in Latin America. Some points are quite understandable: In the International Monetary Fund, which is responsible for monitoring the global financial system, the United States de facto has a veto power. Other Western industrial nations make up for the majority of the vote. The same applies to the World Bank whose president always is appointed by the President of the United States. It is hard not to...

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.

-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who statte there had not been a well worth reading through. I discovered this ebook from my dad and i encouraged this book to find out.

-- Lacy Goldner
