This complete, authoritative J2EE specification, direct from Sun Microsystems, is all developers need to know to deploy J2EE. Java 2 Enterprise Edition Specifications contains detailed coverage of the J2EE standard platform for application hosting; the new J2EE compatibility test suite; Sun's J2EE Reference Implementation; and the J2EE application model for developing multi-tier thin-client services. Every key element of J2EE is presented, including new technologies generating serious excitement amongst enterprise developers: servlets, JavaServer Pages, JNDI, and Enterprise JavaBeans. Coverage also includes security, JDBC, RMI-IIOP support, the Java Transaction API, interoperability issues, XML support, and more -- including a full chapter on the future of Java 2 Enterprise Edition. 800 pp. Deutsch.
